

**Verizon New England Inc.
d/b/a Verizon Massachusetts**

Commonwealth of Massachusetts

D.T.E. 03-60

Respondent: John Conroy / John White
Title: Vice President / Exec. Director

REQUEST: AT&T Set 1

DATED: November 25, 2003

ITEM: AT&T 1-20 Provide the quantity of UNE-P lines in service in each Massachusetts wire center, separated by business and residence, as of January 1, 2002, July 2, 2002, January 1, 2003, July 1, 2003, and at present (specifying the date through which data is reported).

REPLY: The attached document shows total residence and business UNE-P lines in service by Verizon MA wire center as of June 30, 2003. The requested data is not available for the dates specified. The attachment contains proprietary information and is being provided to the Department and to parties in accordance with the terms of the Department's Protective Order.

**Verizon New England Inc.

Commonwealth of Massachusetts

D.T.E. 03-60

Respondent: Maryellen Langstine

Title: Director - Wholesale

REQUEST: AT&T Set 1

DATED: November 25, 2003

ITEM: AT&T 1-38 Please explain and list all system modifications made since 1998 that affect the flow through capabilities of the Verizon's OSSs used to process hot cut orders. Please explain and list all Verizon OSS system modifications planned in anticipation of, and related to, the provisioning of bulk hot cuts.

REPLY: Verizon MA objects to this request on the grounds that the requested data is not readily available and would be unduly burdensome to obtain. Detailed review and analysis of large numbers of candidate OSS changes would be required in order to determine the extent to which they might have some direct or indirect effect on "flow through capabilities." In addition, AT&T has been receiving notices of OSS changes in connection with the Change Management Process. Subject to that objection, and without waiving it, Verizon MA states that the number of OSS changes are identified on the Verizon Wholesale Web at the following URLs:

OSS Change Management Process:

http://www22.verizon.com/wholesale/local/cmp/attachment/Verizon_OSS_Interface_Change_Management_Process.pdf.

System Release documents:

<http://www22.verizon.com/wholesale/local/cmp/systems/1,19229,current-December-2003-sri,00.html>.

Currently, no OSS modifications are planned specifically related to the provisioning of Large Job hot cuts.

D.T.E. 03-60

Respondent: Maryellen Langstine

Title: Director - Wholesale

REQUEST: AT&T Set 1

DATED: November 25, 2003

ITEM: AT&T 1-39 Please provide copies of all Verizon materials, documents or job aids describing methods and procedures related to the performance of individual or bulk hot cuts and associated number portability.

REPLY: The information provided in the Attachment is proprietary, confidential and competitively sensitive, and is being provided in accordance with the terms of the Department's Protective order. In addition, the attachment is voluminous, and accordingly, a copy is being provided only to the Department and to AT&T. The document is available for review by other parties at Verizon MA's offices.

Attached are the following Methods and Procedures:

- RCCC - 2 Wire Analog Loop HOT CUT Including LNP, RCO 99-1014
- RCCC - 2 Wire Analog Hot Cut including IDLC, RCO 02-4069
- RCCC - Large Job Project Hot Cut Process, RCO 00-2083,
- RCMAC Flash - LNP & INP HOT CUTS & UNE COORDINATED CUTS
- Frame - Network Operation Information Letter ("NOIL") 0005-005 for Large Job Hot Cut Frame Process

Verizon MA is continuing to search for responsive documents, and, if further responsive documents are identified, will make them available in a supplemental response.
